

England Special Interest Group

Are you currently doing genealogy research on ancestors in England? Would you like to learn about doing English research?

Join our England Special Interest Group. The England SIG meets on the second Monday of each month from 10:00 a.m. to noon in the Saddleback Room at Mission Viejo City Hall, directly across the plaza from the library. This is a general discussion and information-sharing group for topics relating to English genealogy research, and English history and culture.

For more information about the England SIG, contact David Flint:
