The purpose of this special interest group is to give members a place to just "chat about genealogy". Maybe you need a "jump start" or maybe a little help with a "brick wall". Maybe you had an amazing find and your non-genealogy friends just don't get it. This is the place to come. Sharing with other genealogists is always fun.

Internet access is available if you want to bring a laptop or tablet. Even bring a cup of coffee if you like.
